

Clean Soil Acceptance Agreement

Before Cadman can accept any material for deposit on property owned or leased by Cadman, this agreement must be executed. **Cadman requires that this agreement be executed by an owner or officer of your firm (the Company).**

By signing this agreement, the signatory party certifies that all material delivered to Cadman is clean virgin soil, FREE of any contaminants, which does not contain radioactive wastes, dangerous or extremely hazardous wastes (as defined by WAC 173-303), hazardous substances (as defined in WAC 173-340), petroleum or its by-products, soil removed as part of any cleanup action ("problem wastes"), demolition waste, wood waste, any other solid waste, including but not limited to rubbish, ashes, or materials which are not the primary products of public, private, industrial, agricultural, commercial or mining operations, or any material regulated by federal, state or local environmental laws.

Cadman reserves the right to inspect, sample and/or require the Company to sample any and all material before accepting the material. This right does not relieve the Company of its responsibility to tender only clean soil as defined in the preceding paragraph. Any material that is not clean soil will be rejected. Removal and disposal of rejected material is the sole responsibility of the Company. If, after acceptance, the material is discovered not to be clean soil, Cadman will notify the Company. If requested, the Company must remove the material within 24 hours of notification.

The Company agrees to defend, indemnify, and hold Cadman harmless from and against any and all claims, demands, causes of action, damages, liabilities, losses, expenses, penalties and all costs of defense relative thereto, including legal fees, caused by or resulting from the Company's breach of this agreement, specifically including any breach of the Company's obligation to deliver only clean soil.
